

## From the Year Head's Desk

5 March 2026

2026 Term 1

### Connecting with you

Dear Parents/Guardians,

It is with great joy that we welcome you and your child/ward to a new school year. Every new beginning brings fresh opportunities — to learn and to grow. At the heart of our school is a shared commitment to nurturing every child holistically. Through meaningful learning experiences and strong relationships, we aim to nurture future-ready learners with Caring Hearts, Enriched Minds and Determined Spirits.

Your partnership is deeply valued. We look forward to journeying alongside you, celebrating milestones, and supporting one another through the year ahead. Thank you for your trust and continued support.

In partnership,

Ms Shalini, Year Head (Middle Primary)

Mdm Jenny Chua, Assistant Year Head (Middle Primary)

### Key highlights

#### Back to School Programme

The yearly Back-to-School Programme is designed to establish a safe, caring and enabling environment and help our students transition smoothly into the new school year. The programme focuses on making the students feel welcomed, safe, and connected to the school community. The various segments carried out at the school, cohort, class and individual levels build students' emotional readiness, strengthen relationships, and reinforce positive routines and expectations. Through structured activities and positive interactions with teachers and peers, students are made aware of the school expectations and supported in settling into school routines.

Activities during Primary 4 level bonding

## Primary 1 Recess Buddy Programme

The Recess Buddy Programme is an annual initiative where our Primary 4 students are paired with Primary 1 students to ease their transition into a new school environment. Through this experience, the older students develop empathy and leadership skills, while the younger ones gain confidence and reassurance.

The Primary 4 students were able to relate to their own experiences of being in a new environment and steadily guided their juniors. Our Primary 4 students brought the Primary 1s around key locations such as the General Office and dental clinic. During recess, the buddies also guided their younger peers in useful routines such as queuing for food, washing their hands, settling down at their seats and returning their utensils. It was heartwarming to see our Primary 4 students taking the lead and caring for their juniors.

## Chinese New Year celebrations

On 16 February, we ushered in the Chinese New Year with great joy and festive spirit, celebrating the rich traditions and cultural heritage of this special occasion. The school was beautifully decorated, representing prosperity, happiness, and good fortune. Students came dressed in traditional attire, adding to the festive atmosphere. The celebration began with a vibrant assembly programme featuring lively performances by our students and the much-anticipated Lion Dance. Students learned about the significance of customary practices, such as the reunion dinner, and the exchange of auspicious greetings. Students also enthusiastically celebrated with the winners of the classroom decoration competition. Well done everyone and congratulations to classes 3C, 3D, 4B and 4E!

These meaningful experiences deepened an appreciation of the Chinese culture, and values such as family unity, respect, and harmony. The celebration was a poignant reminder of the importance of cultural understanding and community spirit. As we welcome the new year together, we wish all our families happiness, good health, and prosperity in the year ahead!
